TARIFF FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the AZ CC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the AZ CC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff pages in effect. Consult the check sheet for sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.
2.1.
2.1.1.
2.1.1.A.
2.1.1.A.1.
2.1.1.A.1.(a).
2.1.1.A.1.(a).I.
2.1.1.A.1.(a).I.(i).
2.1.1.A.1.(a).I.(i).(1).

D. Check Sheets - When a tariff filing is made with the AZ CC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the AZ CC.

SECTION 1.0 - TECHNICAL TERMS AND ABBREVIATIONS, (Cont'd)**1.2 Definitions, (Cont'd)**

Subscriber - The person, firm, corporation, or other legal entity which arranges for services of the Company on behalf of transient third party Consumers. The Subscriber is responsible for compliance with the terms and conditions of this tariff. A Subscriber may also be a Customer when the Subscriber uses services of the Company. See also Traffic Aggregator.

Switched Access - Where access between the Customer and the interexchange carrier is provided on local exchange company Feature Group circuits. The cost of switched Feature Group access is billed to the interexchange carrier.

Third Party Billing - A billing arrangement by which the charges for a call may be billed to a telephone number that is different from the calling number and the called number.

Terminal Equipment - Devices, apparatus, and associated wiring, such as teleprinters, telephones, or data sets.

Traffic Aggregator - A Subscriber that in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for telephone calls using a provider of operator services.

V & H Coordinates - Geographic points which define the originating and terminating points of a call in mathematical terms so that the airline mileage of the call may be determined. Call mileage is used for the purpose of rating calls.

ORIGINAL**SECTION 2.0 - RULES AND REGULATIONS, (Cont'd)****2.3 Payment and Credit Regulations****2.3.1 Payment Arrangements**

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer for transmission of calls via the Company. The Customer agrees to pay to the Company any cost(s) incurred as a result of any delegation of authority resulting in the use of his or her communications equipment and/or network services which result in the placement of calls via the Company. The Customer agrees to pay the Company or its authorized agent any and all cost(s) incurred as a result of the use of the service arrangement, including calls which the Customer did not individually authorize.

All charges due by the Customer are payable to any agency duly authorized to receive such payments. The billing agency may be a local exchange telephone company, credit card company, or other billing service. Terms of payment shall be according to the rules and regulations of the agency and subject to the rules of regulatory agencies, such as the AZ CC. Any objections to billed charges must be promptly reported to the Company or its billing agent. Adjustments to Customers' bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate. Payment periods may vary by product.

Charges for installations, service connections, moves, and rearrangements, where applicable, are payable upon demand by the Company or its authorized agent. The billing thereafter will include recurring charges and actual usage as defined in this tariff.

2.3.2 Deposits

The Company does not require a deposit from the Customer or Subscriber.

SECTION 2.0 - RULES AND REGULATIONS, (Cont'd)**2.5 Refunds or Credits for Service Outages or Deficiencies****2.5.1 Interruption of Service**

Credit allowances for interruptions of service which are not due to the Company's testing or adjusting, to the negligence of the Customer or Subscriber, or to the failure of channels, equipment and/or communications systems provided by the Customer or Subscriber, are subject to the general liability provisions set forth in this tariff. It shall be the obligation of the Customer to notify Company immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, the Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any furnished by Customer and connected to Company's terminal. Interruptions caused by Customer-provided, Subscriber-provided or Company-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via LEC access. For purposes of credit computation every month shall be considered to have 720 hours. For services with a monthly recurring charge, no credit shall be allowed for an interruption of continuous duration of less than two hours. For message rated toll services, credits will be limited to, at maximum, the price of the initial period of individual call that was interrupted.

2.5.2 Inspection, Testing and Adjustment

Upon reasonable notice, the facilities provided by the Company shall be made available to the Company for such tests and adjustments as may be deemed necessary for maintenance in a condition satisfactory to the Company. No interruption allowance will be granted for the time during which such tests and adjustments are made.

2.9 Refusal or Discontinuance by the Company, (Cont'd)

- 2.9.8** Without notice in the event of unauthorized or fraudulent use of service. Whenever service is discontinued for fraudulent use of service, the Company may, before restoring service, require the Subscriber to make, at his or her own expense, all changes in facilities or equipment necessary to eliminate illegal use and to pay an amount reasonably estimated as the loss in revenues resulting from such fraudulent use.
- 2.9.9** For failure of the Customer or Subscriber to make proper application for service.
- 2.9.10** For Customer's or Subscriber's breach of the contract for service between the Company and the Customer, including posting or access requirements as specified to comply with state and federal regulations.
- 2.9.11** When necessary for the Company to comply with any order or request of any governmental authority having jurisdiction.

2.10 Limitations of Service

- 2.10.1** Service will be furnished subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this tariff.
- 2.10.2** The Company reserves the right to discontinue furnishing service, upon written notice, when necessitated by conditions beyond its control, or when the Customer or Subscriber is using the service in violation of the provisions of this tariff, or in violation of law.
- 2.10.3** The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections.

SECTION 3.0 - DESCRIPTION OF SERVICE AND RATES

3.1 General

The Company offers operator and directory assistance services to entities serving the transient public.

Each Customer is charged individually for each call placed through the Company. Charges are computed on an airline mileage basis as described in Section 3.2 of this tariff.

Charges may vary by service offering, mileage band, class of call, time of day, day of week and/or call duration.

Customers are billed based on their use of the Company's long distance service. No installation charges or fixed monthly recurring charges apply.

SECTION 3.0 - DESCRIPTION OF SERVICE AND RATES, (Cont'd)**3.2 Calculation of Distance**

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call.

The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between the Wire Center of the Customer's equipment and that of the destination point is calculated by using the industry-standard "V" and "H" coordinates.

Step 1 - Obtain the "V" and "H" coordinates for the Wire Centers serving the Customer and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the Wire Centers. Obtain the Difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the Wire Centers.

Formula

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

SECTION 3.0 - DESCRIPTION OF SERVICE AND RATES, (Cont'd)**3.3 Timing of Calls**

Billing for calls placed over the network is based in part on the duration of the call. Timing of each call begins when the called party answers the call (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection. Call timing ends when either party hangs up.

3.3.1 Unless otherwise described in the individual service description in this tariff, calls are measured and billed in one (1) minute increments. The minimum call duration for billing purposes is one (1) minute.

3.3.2 There is no billing applied for incomplete calls.

3.3.3 When a call is established in one rate period and ends in another rate period, the rate in effect at the calling station applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call and cannot be assessed on operator assisted calls.

SECTION 3.0 - DESCRIPTION OF SERVICE AND MAXIMUM RATES, (Cont'd)**3.6 Service Offerings****3.6.1 Operator Services**

Operator Services is the furnishing of services for the completion of calls by Consumers and Customers presubscribed to Company made with the assistance of a company operator within the state including aggregator sites and locations. Aggregator sites include, but are not limited to hotels/motels, hospitals, business, military establishments; and locations of public, semi-public, or private pay telephones. Commercial credit cards are only accepted for payment for calls from pay telephone locations.

Usage charges apply to all operator service calls. Additionally, appropriate service charges are billed on a per call basis. The following per call service charges apply individually or in combination as described herein.

A. Calling Card Charge

This charge applies to an operator assisted or automated call placed by a Customer or Consumer where the call charges are billed to a local telephone company issued authorization code rather than to the originating or terminating telephone number. Three levels of assistance are available, depending on the extent of operator involvement in placing the call. See rate schedule below.

B. Operator Station Charge

This charge applies to a service whereby the Customer or Consumer places a non-Person to Person call with the assistance of an operator (live or automated).

C. Collect Call Charge

This charge applies to a billing arrangement whereby the originating caller may bill the charges for a call to the called party, provided the called party agrees to accept the charges.

SECTION 3.0 - DESCRIPTION OF SERVICE AND MAXIMUM RATES, (Cont'd)**3.6 Service Offerings, (Cont'd)****3.6.1 Operator Services, (cont'd)****D. Third Party Billing Charge**

This charge applies to a billing arrangement by which the charges for a call may be billed to a telephone number that is different from the calling number and the called number.

E. Sent Paid Charge

This charge applies when the Consumer requests the operator to bill back to the number from which they are calling. The operator can only do this if the Consumer is calling from a non-restricted number.

F. Person to Person Charge

This charge applies to a service whereby the person originating the call specifies a particular person to be reached, or a particular station, room number, department or office to be reached.

G. Operator Dialed Surcharge

A surcharge applies to Operator Station and Person-to-Person rated calls when the Customer or Consumer has the capability of dialing all the digits necessary to complete a call, but elects to dial only the appropriate operator code and requests the operator to dial the called station. The surcharge does not apply to: 1) calls where a Customer cannot otherwise dial the call due to defective equipment or trouble on the Company network or 2) Calls in which a Company operator places a calls for a calling party who is identified as being handicapped and unable to dial the call because of his/her handicap.

Busy Line Verification and Interrupt services are offered in areas where the service is available. With Busy Line Verification (BLV), the Company operator will determine if the called number or line is in use. Only one BLV will be made per telephone call and an associated charge will apply whether or not conversation was detected on the line. The operator will not complete the call for the Customer initiating the verification request.

2. Busy Line Verification - Interrupt

Busy Line Verification - Interrupt (BLVI) allows the Company operator to interrupt a telephone conversation in progress, upon the caller's request and after a Busy Line Verification occurs. Upon the caller's request, the Company operator will interrupt the busy line and inform the called party that there is a call waiting from the caller. The Operator will not complete the call, but will only inform the called party of the request. If the call is released the Company operator will offer to complete the call for the Customer initiating the interrupt request. An applicable service charge and applicable per minute charges will apply to the completed call. Only one BLVI attempt will be made per telephone call and a charge will apply whether or not the called party releases the line.
